Ansonia Local Schools installs solar panels

Ansonia - On the roof of Ansonia Local Schools, 1,953 solar panels are being installed in hopes of providing 40 percent of the school's energy. Superintendent Jim Atchley said the school entered into a power-purchasing agreement for the $1.5 million project with Solar Power & Light Installers LLC, the general contractors for the project.

"The company, Solar Power and Light, are putting all of the panels in at their own cost, and we just agreed to buy the electric from them," said Atchley. "We have a 15-year agreement, and we had no upfront costs with this project, which is in the only way we could have entered into it." The design, engineering and construction for the project is being done by Ansonia Electric.

Let the joy of Christmas fill your heart and home.

Christmas Story

Darke County Fair this year with another firetruck, which had been retired and was on display at the fair. However, the parents realize whoever gets it (the firetruck)…the parents realize what it is and takes care of it."

"Since she died, I have so much time on my hands. I don’t know what to do," he said. The most favorite thing he has ever worked on is a crane on tracks, which he plans to consider for his next year’s last entries. Niswonger, who also makes such things as jewelry boxes, has been working on tracks, which he plans to consider for his next year’s last entries.
