

Media Advisory

For Immediate Release: December 6, 2013

Solar Power and Light, LLC

GreenTECH STEM Connection Day™ with Lakota Union Elementary School

WHAT: An exciting, fast paced STEM Explorers Outreach Program for K-12 Schools and community-based organizations, providing hands-on discovery and inspiration of science, technology, engineering and math (STEM) careers and jobs.

STEM Explorers uses a public-private partnership network to effectively demonstrate varying types of cool technology ranging from solar power, air quality, fuel cells to energy efficiency via a roomful of stations or PODS hosted by the network partners. A special emphasis is placed on inspiring the students to think about the careers and jobs related to the demonstrated technologies.

WHEN: Wednesday, December 11, 2013; 10:00a.m. – 3:30p.m.

WHERE: Refreshing Springs Church Conference Center and Solar Farm; 7719 LeSourdsville West Chester Rd. West Chester, Ohio 45069

WHO: STEM Explorers Team: Brent Boyd, Chief Operating Officer, Solar Power & Light, Brewster Rhoads, Executive Director, Green Umbrella, Joy Landry, Public Relations Specialist, Southwest Ohio Air Quality Agency, Ginny Frazier, Executive Director, Alliance for Leadership and Interconnection, Mark Gillespie, President, TMI Electrical Solutions. Host: Ben Brown, Principal, Lakota Union Elementary.

Contacts: Brent Boyd, Solar Power and Light (SP&L), 513-283-1494, bboyd@SPLsolar.com; Ben Brown, Principle – Lakota Union Elementary, 513-615-9536
